

Extractive Industries Transparency Initiative (EITI) Support Policy

PT Artha Cipta Langgeng as an extractive industry supports EITI (*Extractive Industries Transparency Initiative*) as the global standard to promote the open and accountable management of oil, gas, and mineral resources. The EITI Standard was concerned with requiring the disclosure of information along the extractive industry value chain from the point of extraction, to how revenues make their way through the government, and how they benefit the public. The EITI is supported by a coalition of government, companies, and civil society.

PT Artha Cipta Langgeng commits to follow the EITI purpose by taking a clear communication between the government, company, and civil society engagement, the establishing of a multi-stakeholder group, and agreeing on a work plan. PT Artha Cipta Langgeng is willing to be a part of The EITI Program, implementing information transparency and supporting the governance system reinforcement.

The Director is responsible for the development and implementation of this policy. This policy is effective since January, 2026 and will be reviewed annually.
